## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### **DETAILED ACTION**

Pending claims 1, 2 and 4 are examined below. Claim 3 is withdrawn and claim 5 is canceled.

#### ***Drawings***

The drawings were received on 6/6/06. These drawings showing the saddle weld are approved.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent 5,261,647 to Venegas, Jr. et al. in view of U. S. Patent No. 4,891,926 to Allenbaugh.

Regarding claims 1 and 2, Venegas, Jr. et al. discloses a guard rail assembly comprising a pair of vertical metal side members (22, Figure 2 and column 2, lines 49-50) covered by polymeric sheathing (26 and 30, Figure 2), a horizontal metal member (50, Figure 2 and column 2, lines 56-57) covered by polymeric sheathing (54, Figure 2, column 2, lines 57-58) spanning the two vertical members, the horizontal member has a length that extends beyond the outermost extent of the vertical side members (as best illustrated in Figure 1). The vertical and horizontal members are attached by way of

removable fastener (38, Figure 2 and column 3, lines 4-6). Venegas, Jr. et al. does not specify that the horizontal and vertical rails are connected with a saddle weld.

Allenbaugh discloses a guard rail assembly connected by welding (column 7, lines 64-66) into a saddle weld (fig. 4: welds between 100 to 84 and 86). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Venegas by using a saddle weld, as disclosed by Allenbaugh, in order to create an impermeable seal and strengthen the bond between components 21 (left and right) to components 50 and 42, respectively.

Regarding claim 4, Venegas discloses the use of removable fasteners (38) for connecting the members.

### ***Response to Arguments***

Applicant's arguments filed 6/6/06 have been fully considered but are moot under new grounds of rejections necessitated by the applicant's amendment of 6/6/06.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3635

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Basil Katcheves whose telephone number is (571) 272-6846. The examiner can normally be reached on Monday-Friday from 7:30 am to 4:00 pm.
